- **Technology and Reporting.** These services are tied together through our sophisticated systems – allowing you to benefit from full end-to-end visibility into your shipments at any time of day, 7 days a week.

“We put our shipments in Line Drive Trucking’s hands for our most important customers, because we know that deliveries will be safe – even with same-day deliveries and specialized shipments.”

- Cross-Border Mexico/US Operations Manager, Mitsubishi Chemical

Flexible. Responsive. Resourceful. All with Integrity.

Line Drive Trucking provides full-service, asset and non-asset-based, logistics services specializing in regional truckload, LTL, drayage, and warehousing.

Founded in 1987, Line Drive Trucking is a regional service provider operating in California, Texas, Arizona, Nevada, Oklahoma, and Florida, with a reputation for integrity, flexibility, responsiveness and resourcefulness.

● **Our core values shape the customer experience you receive:**

We are One Organization, One Family. While we're a family-owned company, we view our employees as part of our valued family – which fosters employee loyalty, longevity, and empowerment.

We Value God, Family, and Country. Faith helps us to overcome hurdles and to dream big with a sense of purpose. This ultimately impacts the level of service you receive.

We Stand for Honesty and Integrity. In a world that sometimes is all about doing what's only "good for me," Line Drive Trucking's philosophy is "if we do what's right for the customer, we'll ultimately benefit." This philosophy guides our decisions to exceed your expectations.

Dedication to Quality of Service. When it comes to supply chain strategy in an extremely competitive marketplace, delivering quality customer service is paramount. We take this seriously in all elements of our business, from initial planning and setting expectations through execution and solving problems. Delivering a quality Customer Experience is our top priority.

In baseball, a good line drive is considered a powerful, strategic play. The batter makes the hit with power and speed, with precision to achieve its intended trajectory. Such an amazing hit happens in the game of baseball — and in every shipment made by Line Drive Trucking.

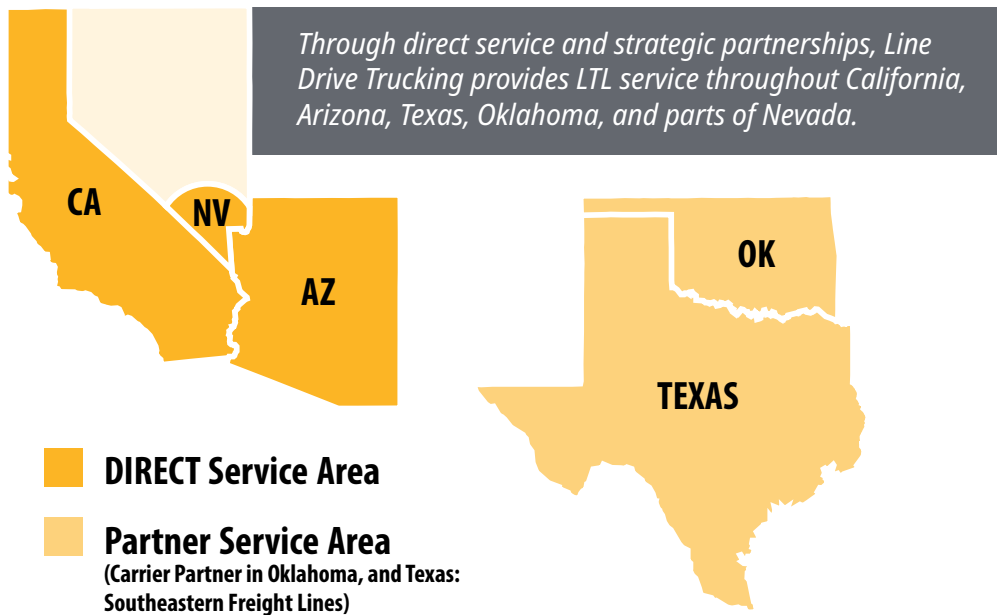

Full Truckload. Need inbound shipments to be delivered by 6 o'clock in the morning or a pick-up late at night, or same-day delivery service? We'll leverage our fleet of company-owned equipment to implement specialized dry freight solutions for you.

Drayage. Capitalize on the fact that we own container chassis to cover regular volumes for fast, flexible, streamlined solutions into and out of the southern California ports and into the next step of your supply chain. In peak season, we have access to high-quality rentals.

Less-than-Truckload (LTL). Whether you need one-day or overnight delivery in the region, we'll pick up and deliver in the most challenging of destinations - including difficult dock areas, commercial and even residential properties.

Third-Party Logistics. Our solutions include these services that enable you to achieve flexibility in your end-to-end supply chain solutions in southern California and Texas:

Truckload Brokerage. Whether you need 48-foot and 53-foot vans or flatbeds, you have on-call, round-the-clock dispatch service available seven days a week.

Warehousing and Distribution. Through strategically located locations, we serve your needs on a contract, short-term, or spot usage basis.

Transloading and Cross-Docking. We receive containers from the port, move them to our DC, receive and arrange the shipments to move right to the final destination.

Southern Border Logistics. Services include import and export drayage, transloading, cross-docking, and consolidation for cross-border shipments.

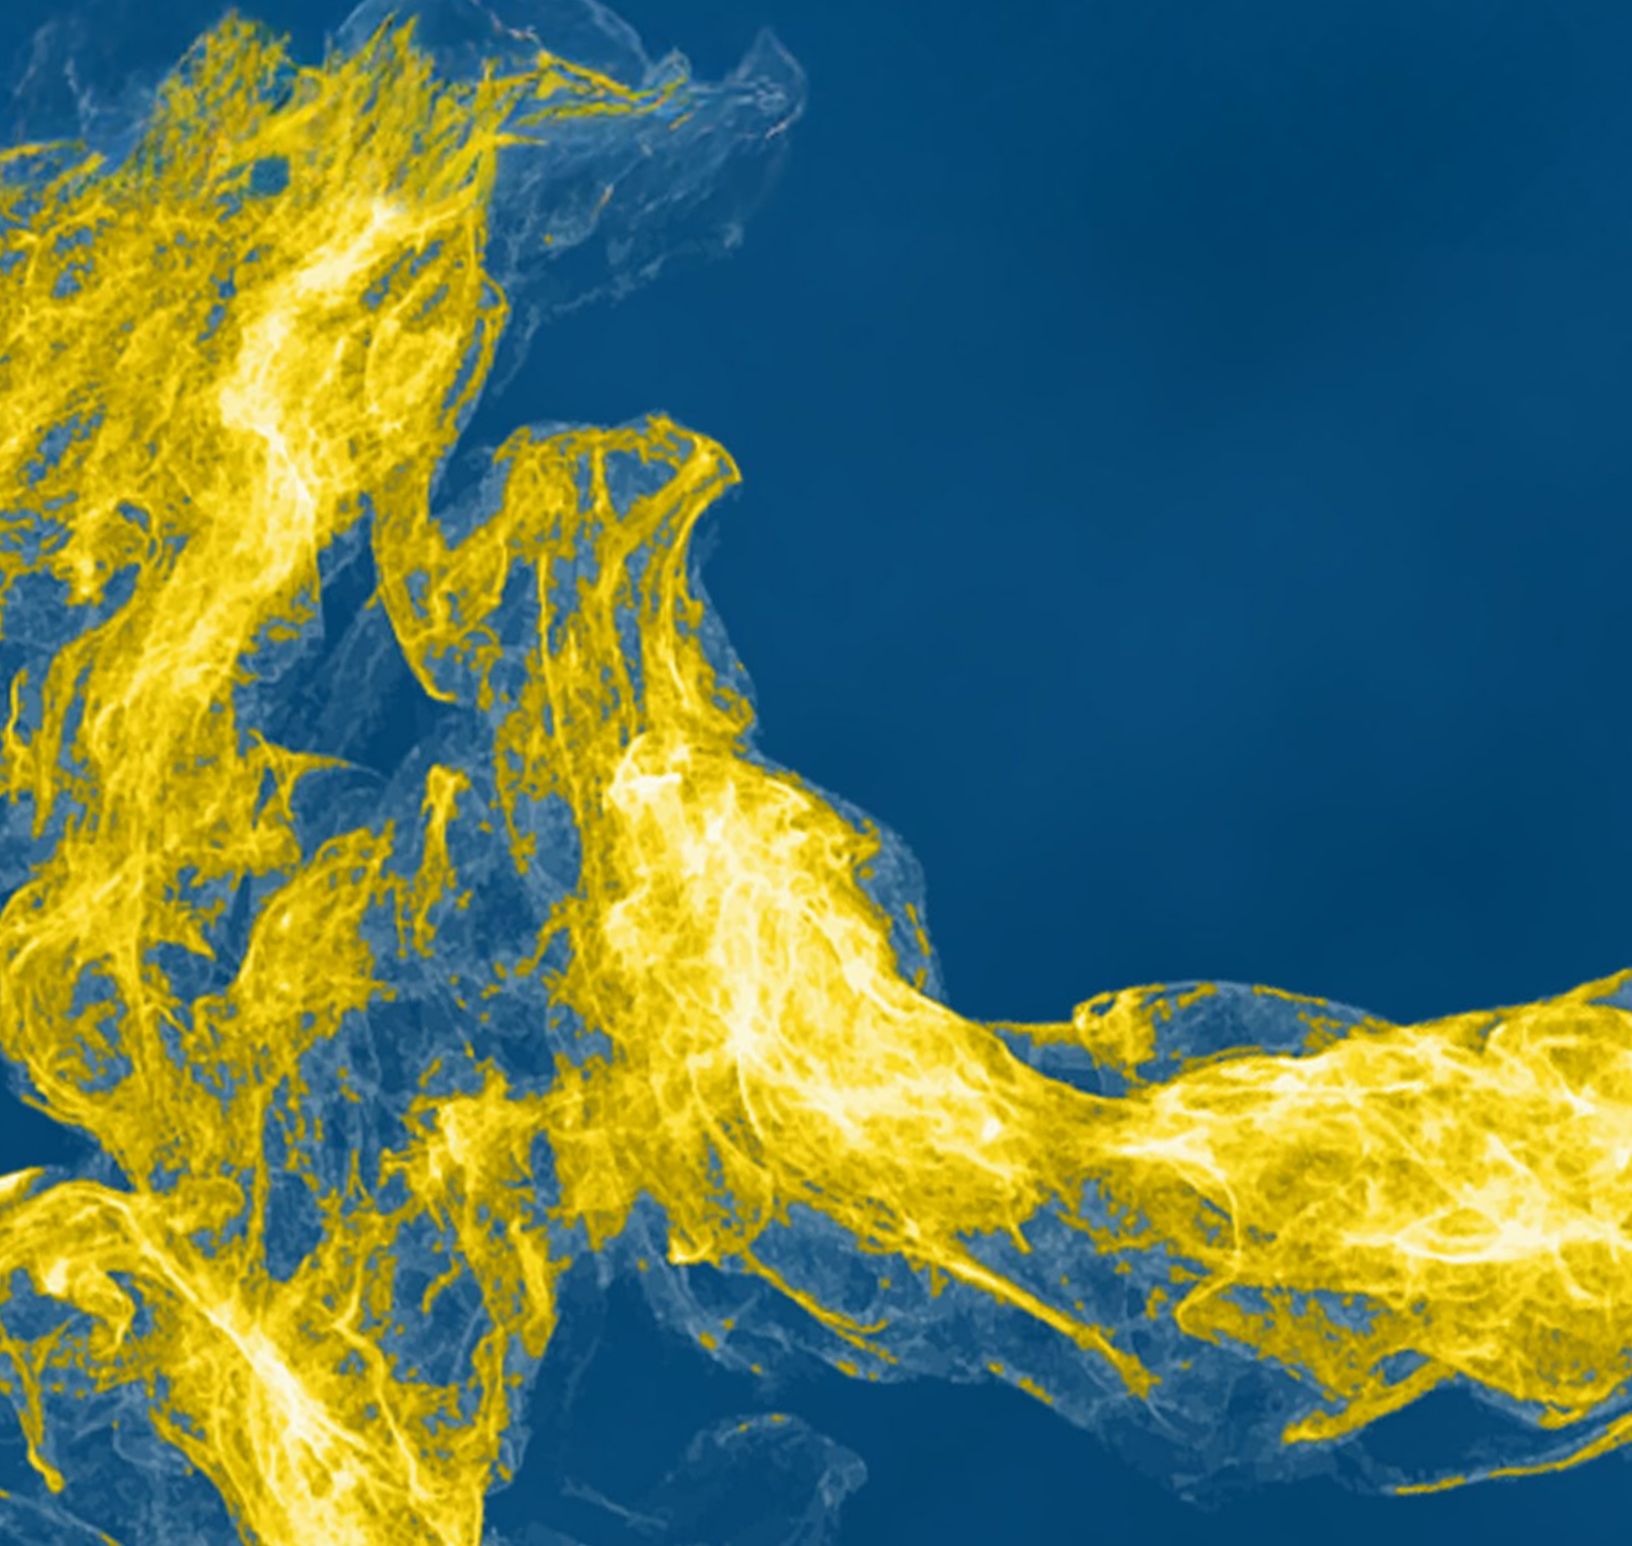

Alcohol Logistics. We have the proper permits, licenses, expertise, and technology in place to manage your spirits inventory down to the case level with lot and date coding.

“Line Drive Trucking’s commitment to excellence results in them providing best in class service. 100% on time. 100% damage free. 100% invoice accuracy. No other carrier can make that claim.”

- Director of Logistics, Brady Corporation
